Technical Skills

Programming Languages: JavaScript (ES6+), Java, Python

Backend: Node.js, Express.js, REST APIs, Middleware

Frontend: HTML, CSS, Tailwind CSS, React.js, Next.js, Redux

Auth & Security: JWT, Role Based Access Control(RBAC), bcrypt

APIs and Integrations: OpenAI API, Gemini API

Databases: MongoDB, MySQL, Mongoose

AI Tools: ChatGPT, Cursor , Codex, Claude, Github Copilot

Developer Tools: Git, GitHub, Postman, Render, Vercel

Projects

MindStack | EdTech Full Stack Platform | Live Demo

MERN Stack , Razorpay , Redux , Gemini 2.5 flash

- Built a full-stack edtech platform enabling users to create, explore, and enroll in courses with dedicated student and instructor dashboards.
- Integrated an AI-powered student doubt-solving chatbot using Gemini/OpenAI APIs, allowing students to ask course-related questions while learning.
- Developed responsive UI using React, Redux, and Tailwind, supporting features like course browsing, wishlist, and content consumption.
- Integrated Razorpay for secure payments with webhook verification, and implemented JWT-based authentication with OTP and bcrypt for user security

ShareHope | Full Stack Food Donation Platform | Live Demo

MERN Stack

- Built a full-stack MERN application connecting restaurants and NGOs, implementing role-based workflows for donation creation, claiming, and collection through a responsive React frontend.
- Solved the “Double-Claiming” issue by writing Mongoose validation logic that checks the donation status (Available vs Claimed) before allowing an NGO to process a request.
- Designed and integrated RESTful APIs with the frontend to manage the complete donation lifecycle, along with pagination, filtering, and efficient data handling.
- Built secure authentication and authorization using JWT and role-based access control (RBAC), ensuring restaurants and NGOs could only access actions and data relevant to their roles.

Education

Noida Institute of Engineering and Technology

B.Tech, Information Technology

Greater Noida, India

2022 – 2026

RNS World School

Class XII (CBSE) - 81.6%

Jhansi, India

2020 – 2021

Certifications

- GenAI for IT - Infosys Springboard
- SQL — Infosys Springboard
